

Kipling Wrote a Book "The Light That Failed"

An intensely interesting, yet sad story about an artist who gradually went blind. Many people partially lose their sight by exposure to strong light. Certain rays in daylight or electric light are very harmful and useless, others are harmless and necessary. The useless, harmful heat and actinic rays will not pass through Sir William Crookes glass, yet all the necessary, useful light does. We can make glasses for you that will do wonders for your eyesight.

WESTERN CITIES PLAN MUNICIPAL LINKS FOR GOLF

Coast Has Number of Courses
Where Thousands Play Every
Year; Interest Increasing

[By Associated Press]
SAN FRANCISCO, Cal.—Of the
important cities of the Pacific Coast
all but two can boast a municipal
or public golf links. The two ex-
ceptions are Oakland and Portland.
This is according to figures gathered
by Mrs. C. L. Kellher, municipal
reference librarian at Portland.

Portland now is determined to be in-
cluded in the list of those possessing
a public course and steps are being
taken in this direction. It is believed
that the city will be willing to appro-
priate \$7000 to \$8000 for this purpose
and that once under headway the
course would soon pay for itself by
means of a nominal charge for green
tees.

Spokane is completing its municipal
course, which is expected to be ready
for play by the first of May.

That these public links are a means
of putting healthful outdoor recrea-
tion within the reach of many who
otherwise would have little opportunity
of getting exercise is shown by the
record of the Los Angeles course, which
has been open only for one
year. According to S. B. Norton,
secretary of the park board of that
city, approximately 25,000 persons
used the links during that time and
the patronage steadily is increasing.
The only charge is 25 cents for a per-
mit, good for all time.

At Seattle an 18-hole course was
opened last May. Up to date more
than 26,000 have played and the re-
venue has been in excess of \$10,000,
which shows an approximate profit of
\$1000 over the operating cost. The
green fees are \$5 per year, \$2 per
month, 50 cents a day or 25 cents a
game.

Honolulu is not behind the other
coast cities in boosting for more golf
and better play. The Hawaii Pro-
motion Committee has taken up the
question of erecting a golf course at
Kapiolani Park, and if this can be ac-
complished the class of play is cer-
tain to be improved here.

In addition to being a benefit to the
sport in the city the effect in bring-
ing many tourists here would be es-
pecially noticeable, as Del Monte is the
center of the tourists in that section
because they can furnish a round of
play for the lovers of the royal and
ancient pastime. In Los Angeles the
public links are being used by thou-
sands of players who would not other-
wise have an opportunity to play the
game.

In addition to the proposed estab-
lishment of a course at Kapiolani
Park, the members of the Hawaii
Promotion Committee have voted fa-
vorably on the question of a public
course at the Volcano House. With
two public golf courses planned for
the year Hawaii is certain to be the
Mecca for all those who wish to test
out their drivers and putters the year
round.

This class require different glasses
for reading than for looking off—it is
not only annoying, but wrong to look
at a distance through glasses intended
for near. The wonderful new One-
piece Bifocal solves this very impor-
tant problem and makes it possible to
enjoy near and far vision without dis-
comfort or the slightest inconveni-
ence. The highest degree of perfec-
tion was achieved in the invention of
this new lens—the grinding is so skill-
fully done that an observer will not
notice that they are bifocals. See Dr.
Clype at Rooms 37 and 33, Young
Bldg., Wall & Dougherty's Optical De-
partment.—Adv.

TEXAS CITY WIPED
OUT BY BIG FIRE

[Associated Press by Federal Wireless]
PARIS, Texas, March 22.—Flames
which broke out late last night and
are still uncontrolled, have destroyed
more than two-thirds of Paris, and
have done damage estimated at more
than \$2,000,000 dollars. Appeals have
been sent out to nearby cities for as-
sistance in fighting the fire.

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! If Tongue is
Coated Give "California
Syrup of Figs"

Every mother realizes, after giving
her children "California Syrup of
Figs," that this is their ideal laxative,
because they love its pleasant taste
and it thoroughly cleanses the tender
little stomach, liver and bowels with-
out griping.

When cross, irritable, feverish or
breath is bad, stomach sour, look at
the tongue, mother! If coated, give a
teaspoonful of this harmless "fruit
laxative," and in a few hours all the
foul, constipated waste, sour bile and
undigested food passes out of the bow-
els, and you have a well, playful child
again. When its little system is full
of cold, throat sore, has stomach-ache,
diarrhoea, indigestion, colic—remember
a good "inside cleansing" should al-
ways be the first treatment given.

Millions of mothers keep "California
Syrup of Figs" handy; they know a
teaspoonful today saves a sick child
tomorrow. Ask your druggist for a
50-cent bottle of "California Syrup of
Figs," which has directions for babies,
children of all ages and grown-ups
printed on the bottle. Beware of coun-
terfeits sold here, so don't be fooled.
Get the genuine, made by "California
Fig Syrup Company."—Adv.
